▲ Product Specifications

Project	Parameter
resolution ratio	1920*1080 (1080P)
pixel	2MP
Communication frequency band	4G All Networks
fixed position	GPS+BD double mode
working voltage	Original vehicle circuit power: 9-36V
working current	250mA@24V (full load)
Video bitrate	Adaptive 512kbps~1Mbps
Video upload bitrate	Adaptive 512kbps~1Mbps
storage medium	Class 10 or higher high-speed TF card*1
power line	0.5M 5-core aviation head
levels of protection	IP67
working temperature	-25~70℃
storage temperature	-40~85℃

RapixMax
